EXPERIENCE

Product Designer
Summer 2015 - Present
Galvanize

Designing student experiences at Galvanize. Utilizing team collaboration and agile practices to build and design great software. UI, UX, and user research.

UI/UX Designer
Fall 2013 - Summer 2015
Mapleton Hill Media

I participated in user research, created interactive high fidelity prototypes, and was responsible for the visual design of a variety of network testing web applications and websites.

Equipment Qualification Engineer
Spring 2010 - Summer 2013
Westinghouse Electric Company, LCC

I performed qualification testing and analysis on mechanical and electrical safety equipment installed in nuclear power plants. I was responsible for the design and manufacturing of various modifications made to equipment based on meeting seismic qualification standards for installation at new plants.
